

SIWES Mop-Up Defense: Ikirun College Fixes October 15, 16 for ND II Students

By Oluwafimihan Farinloye

The management of Ikirun College of Health Technology, Ikirun, Osun State, has scheduled Thursday, October 15 and Friday, October 16, 2026, for a mop-up defense exercise for ND II students who are yet to defend their Students Industrial Work Experience Scheme, SIWES, reports.

The exercise, approved by the Rector of the College, Mr. Salaudeen Oyewale, is designed to provide affected students with a final opportunity to complete the SIWES defense component of their academic programme. The College noted that the defence remains an essential requirement for the successful completion of the programme. A memo signed by the SIWES Coordinator, Mr. Sodiq Olaoye, participation in the mop-up exercise is subject to the fulfilment of stipulated requirements by the affected students. Such requirements include the payment of all necessary fees and the successful completion of the prescribed clinical posting exercise, with the relevant SIWES logbook properly completed and duly signed by the appropriate authority.

The Coordinator however advised all affected students to use the opportunity to put their documentation in order and adequately prepare for the defense, stressing that failure to meet the eligibility requirements would have academic consequences. He warned that any affected student who fails to satisfy the stipulated conditions for participation in the mop-up exercise will have the SIWES programme treated as a carryover.

The College consequently urged the students concerned to take the scheduled exercise seriously and ensure full compliance with all requirements before the defense dates, in order to avoid further delay in the completion of their programmes.

Ikirun College Commences One-Year Industrial Training for Graduating Students

The Ikirun College of Health Technology, Ikirun, Osun State, has announced the commencement of a mandatory one-year Industrial Training programme for all eligible graduating students, as part of efforts to equip them with practical experience and prepare them for professional practice.

The Rector of the College, Mr. Salaudeen Oyewale, approved the commencement of the programme, with the collection of Industrial Training letters scheduled to begin on Tuesday, September 15 and end on Wednesday, October 14, 2026. Eligible students are required to obtain their letters from the Industrial Liaison and Placement Unit within the stipulated period and are expected to present a photocopy of their Statement of Result for processing. The College said the mandatory Industrial Training programme will officially commence on Thursday, October 15, 2026 and run until Thursday, October 14, 2027. It urged all eligible students to complete the necessary documentation and secure appropriate placements before the commencement date, stressing that the training provides an opportunity for students to translate classroom knowledge into practical experience relevant to their respective fields.

According to the College, students are expected to take the programme seriously, as the Industrial Training experience forms an important part of their academic and professional development. It further reminded the students that a certificate of completion of the Industrial Training is a mandatory requirement for participation in the National Youth Service Corps, NYSC, programme.

The College therefore advised all eligible graduating students to comply with the stipulated procedures and timelines, describing the training as an important step towards completing their academic requirements and preparing for life after graduation. Management wished all participating students a successful, productive and rewarding Industrial Training experience.

Ikirun Health Tech to Host Maiden Health Summit October 15

BY OLUWATIMILEYIN FASHOLA

The Ikirun College of Health Technology, Ikirun, Osun State, is set to host its maiden Health Summit on Wednesday, October 14, 2026, following approval by the Rector/Chief Academic Officer, Mr. Salaudeen Oyewale during the Management and Advisory Council committee's September meeting.

The summit, which is expected to bring together students, academic staff and other members of the College community, will feature an academic symposium and an interdepartmental competition designed to promote knowledge-sharing, healthy intellectual engagement and collaboration among students. Speaking on the development, the Rector of the College, Mr. Salaudeen Oyewale, said the decision to establish the summit was part of the institution's commitment to creating platforms that complement classroom learning and expose students to practical discussions on contemporary health issues.

Oyewale said the academic symposium would provide an avenue for participants to broaden their understanding of developments in the health sector, engage with topical issues and exchange ideas beyond their regular academic activities. He added that the interdepartmental competition would give students an opportunity to demonstrate their knowledge, teamwork, creativity and ability to apply what they have learnt in the classroom. According to him, the summit is expected to become an important feature of the College's academic calendar, providing a platform where students from different departments can interact, compete constructively and learn from one another.

"The Health Summit is not just about competition; it is about creating an environment where our students can think critically, share knowledge and develop the confidence required for professional practice," the Rector said.

He explained that the initiative also aligns with the College's broader objective of producing health professionals who are not only academically grounded but also capable of responding effectively to emerging challenges in the health sector.

The maiden Health Summit is expected to feature presentations and intellectual engagements around relevant health-related issues, while the interdepartmental competition will provide an additional platform for students to showcase their academic knowledge and skills. The College management has consequently encouraged students and members of the academic community to actively participate in the programme, describing the summit as an opportunity to strengthen academic interaction, promote healthy competition and deepen students' appreciation of their roles in the health sector.

The event is scheduled to hold on Thursday, October 15, 2026, at the Ikirun College of Health Technology, Ikirun.

Management Urges Students to Accept JAMB CAPS Admission Before Deadline

By Adewuyi Simeon Adedotun

The Management of Ikirun College of Health Technology, Ikirun, Osun State, has directed students whose admissions have been approved on the Joint Admissions and Matriculation Board's Central Admission Processing System, JAMB CAPS, but are yet to accept the offers, to complete the process on or before Tuesday, September 15, 2026. The directive followed the extension of the deadline by JAMB for the acceptance of the 2025 admission exercise to September 30, 2026. However, the College said it had fixed an earlier deadline for affected students in order to enable it to compile and submit the final list of eligible students through the JAMB portal.

In a notice signed by the College's Public Relations Officer, Mr. Adewuyi Adedotun, Management urged all affected students to treat the directive as a matter of importance, stressing that failure to accept their admissions within the College's stipulated period could affect their inclusion in the final matriculation list to be submitted to JAMB.

The College explained that students whose admission status is showing as "Not Accepted" on JAMB CAPS are required to log into their JAMB profiles, access the CAPS portal and check their admission status. Where an admission has been offered, the student is expected to click on "Accept Admission" and confirm that the process has been successfully completed. Affected students are also required to retain a screenshot or other evidence confirming acceptance of the admission, print their admission letters and submit them to the College's Admission Officer for necessary documentation.

The College warned that failure to complete the process within the stipulated period could have consequences for the students' admission status and future admission-related processes, adding that it would not be responsible for adverse developments arising from a student's failure to accept the admission as directed.

Management therefore advised all affected students to check the list released by the College to confirm whether their names are included and to complete the acceptance process without further delay. Students experiencing difficulties with the JAMB CAPS process were advised to promptly contact the Admissions Unit of the College for guidance and assistance.

Management Reconstitutes Students' Disciplinary Committee

By Adewuyi Simeon Adedotun

The Management of Ikirun College of Health Technology, Ikirun, Osun State, has reconstituted its Students' Disciplinary Committee as part of efforts to strengthen discipline, responsible conduct and peaceful coexistence within the College community.

The reconstitution, approved by the Rector, Mr. Salaudeen Oyewale, is aimed at ensuring that matters relating to students' conduct are given appropriate attention and handled in line with the rules, regulations and established procedures of the institution. The reconstituted committee is chaired by the Rector, Mr. Salaudeen Oyewale, while the Registrar, Mr. Abdullah Adeniyi; Acting Director of Academic Planning, Ms. Dorcas Oluwaseun; Mr. Victor Olorunleke and the Public Relations Officer, Mr. Adewuyi Adedotun, serve as members, with Mr. Adewuyi also serving as Secretary.

Speaking on the reconstitution, the Rector said the initiative reflects Management's commitment to maintaining an orderly and conducive environment where students can pursue their academic activities without unnecessary distractions. Oyewale stressed that discipline remains an important component of effective education, noting that students are expected to conduct themselves responsibly and abide by the rules guiding the College.

He said the committee would consider disciplinary matters objectively and in accordance with established procedures, adding that the objective was not merely to punish misconduct but also to promote responsible behaviour and help students understand the consequences of their actions. The Committee is expected to consider and address matters relating to students' conduct and discipline, while ensuring that issues brought before it are handled within the framework of the College's rules and regulations.

The College therefore urged students and staff to cooperate with the reconstituted committee and continue to uphold the standards of discipline, responsibility, mutual respect and good conduct expected of members of the College community. The Rector also called for the collective support of students and staff in sustaining peace and order within the institution, stressing that a disciplined and peaceful environment remains essential to effective teaching, learning and academic development.

Management Approves Disciplinary Measures Against 15 Students Over Siwes Absence

The Management of Ikirun College of Health Technology has approved disciplinary measures against 15 students for absconding from their approved Students Industrial Work Experience Scheme (SIWES) attachment places during the 2026/2027 academic session. The decision followed the recommendations of the Students' Disciplinary Committee (SDC) at its sitting on Monday, 28 September 2026, after the Committee considered reports concerning students who failed to remain at their designated SIWES placement centres and, in some cases, failed to honour invitations to appear before the Committee.

Those placed on indefinite suspension are Raji Zainab Omoshalewa, Titiloye Precious Pamilerin, Adeniyi Felicia Titilope, Ayoola Rhoda Oluwaferanmi, Abdulfatai Saidat, Ajibola Aliht Olaitan and Animasahun Rosheedat. According to the disciplinary report, the affected students were sanctioned for absconding from their SIWES placements and, in the cases of the first six students, failure to appear before the Students' Disciplinary Committee when invited. Animasahun Rosheedat was additionally sanctioned for what the Committee described as presenting false information before the SDC and insubordination.

The Management also directed Lawal Rukayat Adejoke, Adesokan Gideon, Olayiwola Abdullah Olalekan, Kareem Kehinde, Gbadegesin Temitope Lydia, Ogunmodede Zainab Abosede and Jolaade Kaosara Olatoyinbo to return to their respective SIWES placements for a mandatory period of one month.

The disciplinary action underscores the importance attached by the College to SIWES as an integral part of students' academic and professional preparation. In the statement, Management said, "SIWES is an essential component of the students' academic training," stressing that all students are required to comply fully with their approved attachment placements and the rules and regulations governing the College.

Management further advised the affected students to take the disciplinary decisions seriously and conduct themselves responsibly while fulfilling the directives imposed on them. It also called on the entire student body to learn from the development and ensure strict compliance with approved SIWES placements, noting that participation in the programme is not merely an administrative requirement but an important opportunity for students to acquire practical experience relevant to their chosen fields. The Management, through the statement, urged students to demonstrate discipline and commitment to their academic responsibilities, particularly in programmes requiring practical exposure and professional experience.

The College Community has consequently been enjoined to take note of the approved disciplinary measures and be guided accordingly. The disciplinary measures were communicated by the Students' Disciplinary Committee (SDC) under reference ICHT/SDC/REP/2026/002 and published by the Public Relations Unit, Office of the Rector, Ikirun College of Health Technology.

Management To Officially Inaugurate College Press Club, Commends Student Volunteers

COLLEGE PRESS CLUB
BE THE VOICE | TELL THE STORY | MAKE AN IMPACT

BE PART OF THE STORY

The Management of Ikirun College of Health Technology is set to officially inaugurate the College Press Club as part of efforts to strengthen students' communication skills and enhance the promotion and visibility of the institution. The initiative, which has attracted students with interests in writing, public speaking, reporting, photography, media and storytelling, is designed to provide members with opportunities to develop practical communication and media skills while documenting activities and telling positive stories about the College.

Management commended the students who volunteered to be part of the Press Club, describing their interest as a demonstration of willingness to contribute to the growth and development of the institution beyond the classroom. It called on members of the club to approach their responsibilities with a strong sense of responsibility, dedication and commitment, stressing the need for accuracy, professionalism, discipline and ethical conduct in all their activities.

Management also urged them to use the platform to project the achievements, activities and positive image of Ikirun College of Health Technology. The College Press Club is expected to serve as a platform for students to engage with issues affecting the campus community, report activities and contribute meaningfully to the College's communication and public relations efforts.

Interested students who wish to participate in the initiative are encouraged to contact the organisers on **0912-245-0871** for further information
